OrbiCut

- a smooth tool for smooth cuts

The body and shaft are made of high quality hardened steel and precision turned for maximum balance. The replaceable HSS cutter blades are manufactured to maximum sharpness and tolerance.

| | Ø | Shaft | Max rpm |
|--------------|-------|-------|---------|
| OrbiCut 20* | 20 mm | 6 mm | 5000 |
| OrbiCut 40** | 40 mm | 11 mm | 5000 |

That is also the reason why OrbiCut...

- shavings instead of dust
- fast and efficient at a low speed
- a minimum of vibrations
- smooth and easy to control
- without risk of wobbling
- sharp for a very long time
